PROJECTS

Indian States and UTs Game ([Play](#) | [code](#))

HTML, CSS and JavaScript && Python, Pandas and Turtle

- Developed an interactive game for identifying all Indian states and UTs, using a map of India that displays correct guesses in real-time.
- Implemented features to show missed states and UTs at the end, enhancing user engagement and learning.

Exlog— Expense Logger ([Android App](#))

Dart, Flutter and SQLite

- Independently developed an Expense Tracker app
- Using it daily to save and view everyday expenses

Sunshine Coaching Center ([website](#))

HTML5, Bootstrap, Flask, MySQL

- Designed and implemented this website for a Coaching Institute in a 3-person team
- Student-oriented website allowing easy signup, login and efficient management of institute-provided resources, enhancing overall student experience.
